PROFESSIONAL EXPERIENCE

ABC COMPANY (*Software firm providing solutions to the banking industry*) -- Sometown, AZ

Programmer / Analyst, 2010 to Present

Create and customize software applications and tools using advanced development and coding techniques. Manage all phases of application design -- from coding and prototyping through system testing, integration and deployment. **Results:**

- Created Facebook applications for multiple insurance and banking clients, leveraging social media channels to help businesses stay competitive and build customer loyalty.
- Served as a member of electronic placement project team, developing strategies to ensure compliance with new industry standards for electronic exchange.
- Developed and enhanced programs using Java, C and C++, contributing to solutions that streamlined processes, increased accuracy and lowered costs. Developed back-office application that saved client more than \$125K annually.

DEF BANK (*Full-service, regional bank*) -- Sometown, AZ

Intern / Programmer, 2007 to 2010

Hired as a full-time programmer following commended performance in initial intern role. **Results:**

- Enhanced DEF Bank reporting subsystem that provided new functionality to reporting functions that were previously unavailable.
- Worked on yearlong project creating interface with core MIDAS system to enable automated report generation. Saved thousands of hours annually while increasing accuracy from less than 90% to 99.9%.
